

JERUSALEM DeFi Security Scanner

Top 300 Protocols - Security Rankings Report

Generated: October 31, 2025 at 04:05 PM UTC

This report presents the top 300 DeFi protocols ranked by security score. Protocols are evaluated across 38+ threat categories including 2025 advanced wallet drainer operations, smart contract vulnerabilities, and phishing attacks. Lower security scores indicate safer protocols.

Severity Levels

No significant threats detected. Recommended for use.
Minor concerns. Generally safe with standard precautions.
Moderate risks. Use with caution and review details.
Dangerous. Avoid use; likely scam or exploit.
